Global View Capital Advisors is a national network of financial services professionals servicing thousands of clients with innovative solutions in investment advisory, insurance, business development systems and global asset management headquartered in Waukesha, Wisconsin.

Mission

To Design, Grow & Protect the Personal Economies of Families from All Over the World

Purpose

Our business serves as the 21st century model of the future by partnering and co-developing with the world's leading-edge advisors, money managers and product providers during the most tectonic shift of economies in history.

Values

Fiduciary n. from the Latin word, "fiducia," meaning in whom another has placed utmost trust and confidence to manage and protect property and money.

Transparency – No matter what the issue, we do our best to provide transparency and eliminate confusing jargon, legalese and spin.

Full Disclosure – We provide full and fair disclosure of all material facts and disclose and fairly manage all material conflicts of interest.

Downside Protection – You work hard for your money – We work hard to protect it by deploying the science of global tactical asset allocation that involves the ability to move 100% to cash in major market declines and avoid devastating losses.

Realizing your dream is an inside job. My secret? I walk by faith, not by sight.
